## OBJECTIVE

---

As a MERN Full Stack Developer transitioning into a role focused on frontend development, I bring a strong foundation in JavaScript, React, and associated technologies, coupled with a fervent enthusiasm for creating captivating user interfaces and seamless user experiences. Eager to leverage my skills and passion for frontend development to contribute effectively as a dedicated and motivated fresher in the field.

## EDUCATION

---

**Bachelor of Computer Application**, K.S.Rangasamy College of Arts and Science Jun 2019 - Apr 2022  
CGPA: 7.9

**Higher Secondary** , Gugai.Hr.Sec.School Jun 2017 - Mar 2019

## SKILLS

---

**Technical Skills**      Javascript, React, Bootstrap, AWS

**Soft Skills**          Problem Solver, Innovation, Quick Learner, Teamwork

## PROJECTS

---

**Portfolio - Built using React JS.** Developed a dynamic and responsive portfolio using ReactJS, showcasing proficiency in frontend technologies, including HTML, CSS, and JavaScript. Implemented interactive features and user-friendly design, demonstrating a keen eye for detail and a commitment to creating engaging web experiences. ([Check it](#) )

**Student and Teacher Management (CURD) - Built using React JS.** Designed and implemented a comprehensive Student and Teacher Management system in ReactJS and JavaScript, incorporating Create, Read, Update, and Delete functionalities for efficient data management. Successfully managed and manipulated static data within the application, demonstrating proficiency in handling data structures and CRUD operations without relying on external databases, showcasing a strong grasp of frontend development principles.

**Calculator - Built using Javascript.** Developed a dynamic calculator project in JavaScript, showcasing strong programming logic and problem-solving skills. Implemented user-friendly functionalities to perform basic arithmetic operations, demonstrating a keen understanding of frontend development.

## ADDITIONALS

---

- Currently pursuing a comprehensive MERN Full Stack Development course at Guvi IIT Research Park, honing skills in modern web development technologies and methodologies.
- De Mentee Academy, earning a verified certificate 15-days UI/UX Bootcamp.
- Actively participated in FICCSI'20, the first International Conference on Computational Science and Intelligence at KSR College.

## LEADERSHIP

---

- Dynamic and motivated individual with a natural inclination for leadership roles. Demonstrated ability to inspire and motivate peers towards common goals through effective collaboration and problem-solving. Proven capacity to adapt to new challenges and lead by example in fast-paced environments. Passionate about learning and contributing positively to the growth and success of the team and organization.
